

SSL Certificates for hosting service providers and resellers

Ispmanager Partner Program

Major vendors' SSLs for any domain zones

No minimum SSL purchase package

It's up to you how many SSL Certificates you buy. There is no minimum purchase requirement and no surcharges when you buy more

30-day payment deferral

Get SSL first, pay later. All Ispmanager Partner Program members get a 30-day payment deferral

No RRP

We set no Recommended Retail Price on SSL Certificates. Your pricing policy is your business

We will configure your billing system for resale

Our engineers will help to configure your billing system for certificate resale

The logo for WHMCS, featuring the letters 'WHMCS' in a bold, blue, sans-serif font. The letter 'C' is replaced by a green gear icon.The logo for billmanager, featuring a yellow square icon with a white horizontal bar to the left of the word 'billmanager' in a grey, lowercase, sans-serif font.

ИЛИ

Any billing via
an open API

You can make SSL Certificates available automatically if you have WHMCS, BILLmanager, or open API billing.

We can offer ready-to-use plugins for automatic SSL Certificate selling via WHMCS or BILLmanager.

For other vendors' billing systems or your in-house solution, connection via a documented open API is also an option. We are willing to help with the resale configuration.
